## Cluster of Bodies Found In Blast-Torn Mine Shaft

### RESCUE CREWS FLASH WORD OF DISCOVERY

West Virginia Tragedy Is Second at Old MacBeth Mine Since Sept. 2 — Official Blames Accidental Explosion of Gas as Cause of Accident.

Logan, W. Va., March 12. (AP)—Rescue workers in the MacBeth mine flashed word to the mouth today they had reached "a cluster of bodies."

"Send in all the available stretchers and about 20 men, we can't bring them out," Garland Skaggs, mine engineer, said the rescuers asked.

Three bodies already had been found and 15 miners were missing in the explosion-wrecked mine.

At 11:30 a. m. Skaggs said one unidentified body had been brought to the drift mouth to be hoisted to the surface.

A squad of 17 relief workers entered the mine, carrying water needed to settle dust, and stretchers.

The sealed body of Floyd Fields, 30-year-old section boss, was brought to the surface at 8:30 a. m. He had gone to work in the mine only three days before. He had a wife and three children.

A grimy rescue worker who came to the surface with the body reported to the crowd of anxious watchers at the pit mouth:

"We may reach the place the others are in about three hours. The roof is falling badly but the going has been easier since early morning."

The blast in the mine, operated by the Hutchinson Coal Company eight miles east of Logan, occurred shortly after 8 o'clock last night.

The bodies of Joe Fry, motorman, and Troy McCoy, his brakeman, were discovered before midnight.

What the crews led by Inspectors J. B. Hansford and R. W. Waldron would find on reaching the others they could not say but they feared the actual explosion had killed them all.

A crowd was gathered about the pit as dawn broke over the mine where 10 other miners lost their lives in a blast last Sept. 2.

Most of them were men. The tearful women, who had stood through most of the night, had returned home to care for their children and to catch a little rest while waiting word from the entombed.

Harold Hutchinson, son of the owner of the mine, reported:

"The explosion occurred in the second west main of MacBeth, about two and three quarters miles from the drift mouth. It was four entries farther back than the scene of the Sept. 2 blast."

N. P. Rhinehart, chief of the Department of Mines, said at Charleston gas apparently caused the explosion, which was localized.

Sheriff Brooks was holding him in the county jail at Boston while the statement was being checked.

Hartsfield was nabbed on a large farm where more than 500 Negroes were employed.

## DECISION ON MOTOR STRIKE FACES DELAY

New Discussion of Disputed Agreement Planned—C. I. O. Chiefs Call Conference To Push Fight on A. F. L. and To Map Expansion.

(By the Associated Press)

Leaders of two major groups affiliated with the John L. Lewis Committee for Industrial Organization mapped plans today for consolidating unionization gains.

The steel workers organizing committee gathered at Pittsburgh at the call of its director, Philip Murray. The latter said the group will plan future strategy as well as review recent developments, notably its recognition by the Carnegie-Illinois Steel Corporation.

Homer Martin, president of the United Automobile Workers of America, called a meeting of the national executive board at Cleveland Monday and Tuesday.

### Motor Plants Still Idle.

Meanwhile, the strike stalemate between the U. A. W. A. and three Michigan automobile manufacturers persisted, keeping more than 70,000 workers idle.

The union's demand for recognition as sole bargaining agency for all employees was the cause of the disputes that kept 55,000 Chrysler Corporation employees and 10,000 Hudson Motor Car Company workers idle at Detroit and 2,200 Reo Motor Car Company workers idle at Lansing, Mich.

Officials of the Los Angeles Chrysler plant announced it would be closed indefinitely because of a shortage of materials.

A dozen Detroit firms outside the automobile industry were plagued with sit-down strikes.

The U. A. W. A. gained recognition from the Douglas Aircraft corporation as bargaining agent for its members among the 5,600 employees at the Santa Monica, Calif., plant.

Donald Douglas, of the company, said an agreement provided for reinstatement of 297 strikers indicated on felony counts for a sit-down demonstration two weeks ago.

### Rivals In Race.

The race of the CIO and its rival the American Federation of Labor for members continued apace. The A. F. of L. scored a gain when more than 200 delegates of the maintenance of way employees union voted at Pittsburgh to affiliate with the federation.

Earlier an official of the steel workers organizing committee announced eight of 22 employee representatives of the Carnegie-Illinois Steel Corporation's Vandergrift plant had aligned with the CIO.

The CIO announced plans for enrolling chemical, tile and gas workers in the Kanawha Valley in West Virginia.

Police received fresh reports of violence in Chicago's taxicab drivers' strike. Roving squads of men snatched drivers, split tires, smashed headlights and windows and removed cab door handles in an effort to prevent non-striking drivers from operating.

More than 4,000 workers were idle in other Chicago strikes.

To help her, she chose Senator Borah, Republican, Idaho, one of the leading opponents of the bill.

Miss Cora Rubin, the Senator's secretary, told her that Senator Borah had no influence with the Democratic Administration in obtaining appointments.

## Norris Urges Congress To Consider Legislative Action and Amendments To Meet Problem of Court Reform

Washington, March 12. (AP)—Senator Norris, Independent, Nebraska, urged Congress today to try both legislative remedies and constitutional amendments to relieve what he called "the present intolerable situation" in the courts.

If those opposing limitations on the power of the courts persisted, he told the Senate, it would result "in the pendulum swinging farther to the other side, than progressive, thinking men and women are advocating at this time."

### Lists Methods.

Without committing himself on President Roosevelt's court bill, Norris listed that and seven other legislative methods for curbing the courts without a constitutional change.

He also listed a series of possible constitutional amendments, any one of which he indicated he would support.

"Our judiciary has not kept pace with human progress," he asserted. "Our judges too often have stood upon the highways of human progress and held aloft 'stop' signs that have impeded civilization in its triumphant march."

"With due respect to the ability, the honesty, and the wisdom of our judges, I believe it can truthfully be said that many of them are living in an age that is past, and are continuing to construe our fundamental law in a light that has failed, rather than in the sunlight of an electric age."

Much of the Senator's speech was devoted to a legal argument that Congress by law could require more than a mere majority decision of the court to invalidate legislation.

Tremendous casualties were indicated in the close formations of Madrid's defenders.

The battlefront about the little Spanish town was strewn with bodies and abandoned weapons. Many prisoners were taken, a communiqué said, including two Italian communist officers of a unit called the "Garibaldi Battalion."

Correspondent for Jewish Agency Gets Ouster Order as U. S. Ambassador Visits Hitler's Minister To "Call Attention" to Attacks.

Berlin, March 12. (AP)—United States Ambassador William E. Dodd visited the German foreign office today to "call attention" to the German press attacks on United States citizens and conditions just as it became known that Boris E. R. Smolar, correspondent for the Jewish Telegraph Agency, had been ordered by the police to leave the country.

Smolar, however, said: "I do not believe my expulsion has anything to do with the LaGuardia incident," subject of the Ambassador's representations.

Ambassador Dodd was accompanied to see Baron Konstantin Von Neurath, the German Foreign Minister, by Frank Lee, first secretary of the Embassy. They acted upon instructions from Washington to make verbal representations concerning the German press comment which followed upon New York Mayor Fiorello H. LaGuardia's recent anti-Hitler speech before a meeting of Jewish women.

Smolar, a naturalized American, received a letter from the police president instructing him to leave Germany within three days because "your continued stay in Germany is inimical to the interests of the German State."

The letter was delivered by a Gestap (secret police) official. In the absence of his wife, Smolar also had to sign a receipt for an expulsion order for Mrs. Smolar. He visited the United States consulate at once, where he was assured vigorous efforts would be made to have the order rescinded.

# RETAIL TRADE ON ADVANCE

## LATE SPRING BUYING IN COUNTRY SENDS SALES ON STEADY GAIN

New York, March 12. (P)—The recent wave of price increases and pressing Easter requirements released additional buying forces during the week which enabled most key cities to report retail sales at a new high for the year, Dun & Bradstreet said today in the review of trade and business.

"Related Spring commitments and more replacement orders from the flood areas brought a fresh impetus to buying in wholesale markets," the agency said. "A more fortified advance spread to most industries, despite the appearance of turbulent labor disputes in some divisions."

The review estimated retail sales for the country as a whole at 6 to 12 per cent ahead of the preceding week and from 15 to 20 per cent over the same week a year ago.

New York, March 12. (P)—Cotton futures opened barely steady, 4 to 16 lower in response to lower Liverpool cables and liquidation. March 12-13; May 12-16; July 12-16; Oct. 12-16; Dec. 12-16; Jan. 12-16.

The selling orders came from many sources including the Far East, Liverpool and the continent as well as the south and commission houses. Reactionary sentiment stemmed from a feeling the advance had been too rapid and reports the recent sharp rise in commodity prices had come in for more or less official attention in Washington and London.

Opening declines attracted good trade buying and after the call foreign buying orders developed in the new crop positions causing prices to recover promptly from early losses.

May advanced from 13.74 to 13.78 and after the first half hour was selling at 13.77 with prices generally 7 to 12 points net lower. March liquidations were influenced by the issuance of notices against 2,000 bales.

#### New Orleans.

New Orleans, March 12. (P)—Pressure in the form of selling from the trade and commission house liquidation forced cotton down 5 to 11 points at the start of trading today.

Losses were general in both old and new crops with the latter positions showing the larger losses. Lower Liverpool cables were a depressing factor early. The English market reported considerable selling by longs who took profits on the current advance. The trade and some buying from Bombay absorbed the options on the way down.

At New Orleans May opened at 13.68; July at 13.54; October at 13.65; and December at 13.68. March was inactive, but a price of 14.04 was offered for the option at the first call.

Although speculative interests showed little inclination to buy cotton at the opening there was no tendency on their part to sell the staple.

# HOUSE PASSES COAL MEASURE

## REVISED GUFFEY - VINSON CONTROL BILL GOES TO SENATE

### Washington, March 12. (P)—The

House passed Thursday legislation devised to provide Federal regulation of the giant soft coal industry. The measure now goes to the Senate.

Striking down every amendment offered, the House pushed the revised Guffey-Vinson coal control bill through without a record vote.

Closely paralleling the original Guffey Coal Control Act invalidated by the Supreme Court, the measure would permit a government commission to fix both minimum and maximum prices for coal.

It also would provide elaborate marketing and fair trade practice provisions.

Unlike its predecessor, the revised bill contains no labor provisions beyond a declaration of policy that miners shall have the right to bargain collectively.

## PWA APPROVAL EXPECTED FOR VALLEY WATER PLAN

### Washington, March 12. (P)—Rio

Grande Valley residents had the promise of the Public Works Administration today that it would release "immediately" a \$1,600,000 grant for construction toward a \$5,000,000 irrigation project in Willacy County.

PWA Administrator Ickes, Secretary of the Interior, signed a requisition, his aides said, authorizing that allocation be made available to the Willacy County Water Control and Improvement District Number One for a project originally approved in December, 1933.

The program contemplated lifting water from the Rio Grande at a new pumping station, carrying it across a pipe system to the district's customers, they said.

Drug smugglers in China have adopted the use of homing pigeons, each of which can carry three ounces of dope, to evade the vigilance of government inspectors.

"I'll have 37 years on the bench," he said, "and by that time I'll be ready to retire."

He was confirmed recently to a roving assignment as the State's fourth Federal District Judge.

Ten years out of law school, Murrah first established himself as a lawyer in oil-booming Seminola, Okla., and later here before he was nominated to the \$10,000-a-year Federal judgeship by President Roosevelt.

### RIVAL ASSOCIATIONS IN CLASH ON PRESIDENT'S REFORM PROGRAM

Washington, March 12. (AP)—John P. Devaney, president of the newly organized National Lawyers Guild, brought into focus today differences between two attorneys' organizations over the Roosevelt court bill by appearing in support of it before the Senate judiciary committee.

The blue-eyed jurist, who resigned last month as Chief Justice of the Minnesota Supreme Court, reached Washington just as the American Bar Association announced its members stood, 16,132 to 2,563 against Supreme Court reorganization.

A poll of the bar association, its officials announced, also showed opposition to increasing the number of judges in lower Federal courts, by a vote of 14,101 to 4,019.

A majority favored, however, the President's proposals for a Supreme Court proctor, for transferring lower court judges, and for speeding up action on constitutional questions.

The National Lawyers Guild, on the other hand, declared when it was organized last month as a rival to the bar association:

"The Supreme Court has fallen behind the needs of the times, blocked progress and is now out of harmony with the urgent social and economic demands of the people."

Spokesmen for the bar association are expected to challenge the arguments when the opponents present their case next week, said Senator Burke, Democrat, Nebraska.

Officers surrounded the ranch house at daybreak today after Jim Horton, employe at the ranch, had taken Cody Bell to a Texon hospital and telephoned Sheriff Bill Fowler about the shooting. He warned Fowler that Russell was heavily armed and would shoot it out with the officers. Fowler and three deputies arrested Russell in his mother's bedroom. He had been shot and could not move.

Sheriff Fowler and District Attorney Alan Fraser of Alpine were to question Cody Bell this afternoon. Sheriff Fowler telephoned Sheriff Lowe at San Angelo and requested a guard be placed at the hospital where Bell is confined.

## PILL SLAVE FREED FROM CONSTIPATION

A convincing tribute is paid to Kellogg's ALL-BRAN in this letter from Mr. F. C. Amensen of Seattle.

"I suffered with constipation for many years and was compelled to use pills every night. Since I got your ALL-BRAN, it works fine. I was so dethly sick of taking pills. Now it is so different. Kellogg's ALL-BRAN works so naturally, and is pleasant to eat."

Inside the body, ALL-BRAN absorbs twice its weight in water, forming a soft mass that gently sponges out the intestines. It also supplies vitamin B to help tone the intestines, and iron for the blood.

You'll enjoy eating Kellogg's ALL-BRAN. As a cereal with milk or fruit, or in appetizing recipes. Two tablespoonfuls every day are usually enough — three times daily if needed. Sold by all grocers.

Made and guaranteed by Kellogg in Battle Creek.

# SMITH-MAXON TEAM WATCHED

PUNTING DEPARTMENT OF LION FOOTBALL MACHINE GETS ATTENTION

A week of drills featuring an aerial attack will be climaxed this afternoon when the Vernon High School Lions engage in an offensive scrimmage.

Showing to advantage in a long passing session Thursday afternoon was the tossing of Charlie Smith and the receiving of Maxon, a newcomer to the Lion squad this season. Plays giving receivers opportunities to get in the open were featured in the workout.

Outstanding in a short kicking drill were the accuracy of Bob Wright's punts, distance and height gained by the ball after leaving Richard Nixon's toe, and the place kicking of Buster Bowling.

After workouts featuring kicking plays next week, the squad will be divided for regular scrimmage sessions. The coaches have given special attention to developing offensive tactics the past two weeks, with running plays taking up most of the time in Spring training last week.

# GALVESTON MAY SUPPLY FISH TO AID PRESIDENT

Galveston, March 12. (AP)—Rather than endure Miami's experience in 1935, ardent Galveston boosters are ready to "plant" fish in the Gulf Coast for President Roosevelt to catch—if he'll cooperate.

Veteran fishermen looking forward to the Chief Executive's proposed fishing trip to these waters the latter part of April said there was virtually no chance of Mr. Roosevelt failing to catch his quota.

But just in case, they vowed to keep their fingers crossed until his visit was ended.

When the President-elect fished off Miami in February, 1935, the press vividly detailed his poor luck. Connie Costabile, longtime Galveston fisherman, recalled: "When the President went fishing off Miami in 1935 he failed to get a tarpon or sailfin. And was Miami's face red?"

"We're not going to take any chances like that. We'll round up a few and put them in likely spots if the President will let us know exactly where he's going to fish."

"Anyway, he's going to dig out my bait foot the latter part of April and get all my friends to do the same."

# TALLEST TALE OF FISHING SETS HIGH GOAL

Washington, March 12. (AP)—From the fountain of American fishery came a tale today big enough to drown all others.

"As the supreme judge of stories for the Hook, Line and Sinker Club," explained Charles E. Jackson, Deputy Commissioner of the Bureau of Fisheries, "I figured I ought to give the members something to cast at."

Jackson's story concerns a Potomac River tug captain named Sue, who used to push the master's boat upstream, when the tide was tough.

To show his appreciation, Captain Sue threw her a steak a day for months, but this whetted her appetite.

One day, the story goes, Sue sighted a cable tied to the Lincoln memorial, stretched to the Washington monument, welded to a battleship, anchor for a hook, and baited with six horses and five cows.

If she gets hooked, the Coast Guard would swoop down with planes and a blimp and raise her while the Army and Navy sail her from the river bank.

# DRUG FOUND HELPFUL IN PRESERVING SHRIMP BAIT

Galveston, March 12. (AP)—Dolph Rogers, veteran island fisherman, thinks he has found a solution to a problem that long has baffled expert salt water fishermen—how to keep live shrimp bait alive.

He learned, he says, that the life and general well-being of shrimp are prolonged by administering a dose of monacid ester of acetyl salicylic acid—Aspirin to you.

He is not sure, however, how many tablets should be used in a given quantity of water and is pursuing further research.

West Texans Organize.  
Midland, Texas, March 12. (AP)—Officials of the West Texas Class B Baseball League will complete organization of their new circuit here Sunday. To the six clubs now holding franchises in the league may be added two others, San Angelo and Big Spring will have representatives at the meeting. The present members are Hobbs and Roswell, N. M., and Wink, Odessa, Monahans and Midland. The league schedule calls for opening games May 1.

# DIZZY BALKS AT \$22,500

CARDS PREPARE TO PLAY WITHOUT SERVICES OF DEAN THIS SEASON

Daytona Beach, Fla., March 12. (AP)—The St. Louis Cardinals will prepare to go through the season without Dizzy Dean, Sam Breadon, president of the club, announced after a series of contract conferences yesterday to shake the pitcher's demand for a \$50,000 salary.

As he left for his Bradenton, Fla., home, Dean declared he was retiring from baseball and entering other business.

Breadon said he had offered Dean a salary equal to last year's \$22,500 with a "little more money" to be added if certain contract clauses were eliminated. These clauses promised higher pay, if home attendance reached 500,000 and if the Cards won the pennant.

"Old Diz" hinted he might think of some sort of compromise, if the compromise figure were a big one, but Breadon said there would be no compromise.

# Phillies Facing Fight To Keep Out of Cellar

Winter Haven, Fla., March 12. (AP)—The cold hard truth about the Philadelphia Phillies is that they'll be miracle men to stay out of the National League cellar in 1937.

Riddled by player sales, which have netted \$350,000 in cash and no player talent over the last three years, the Phillies haven't much to work on except for Player-Manager Jimmy Wilson and a couple of pitchers.

Wilson, who bragged about a great pitching staff last Spring and then was criticized by Owner Gerald Nugent when the mound staff bogged down during the season, is back shouting praises of his hurlers again this year. He thinks he'll have a pitching staff second to none with Claude Passau and Bucky Walter his mainstays.

Men must be developed for infield and outfield duty but no one with the complexions of a good, reliable major league of first rate calibre can be found around the camp.

Philadelphia's pitching weakness apparently has been patched up with the acquisition of two south-paw pitchers, Bob Burke, who once pitched a no-hit game for Washington, and Wayne La Laster, winner of 13 games for Louisville in '36.

The rest of the pitching staff undoubtedly will consist of Orville Judge, Joe Bowman and Hugh Mulcahy.

# TRAINING CAMP BRIEFS

(By The Associated Press)  
Winter Haven, Fla.—The new home plate with beveled edges, to be used in the National League this season, was installed at the Denison Field training base of the Philadelphia Leaguers.

Mexico City.—The Philadelphia Athletics favor substituting Mexican pitching for the brand they expect in the American League this season. The Mackmen, in two games, welcomed native pitchers' offerings for 45 hits and 26 runs in shelling the Agrarians, 18 to 1 and 18 to 5.

San Bernardino, Calif.—The Pittsburgh Pirates started batting practice, the first since they reached training camp four days ago. Red was pitcher, drove two against the once.

Catalina Island, Calif.—Manager Charlie Grimm of the Cubs had his first look at rookie outfielder Joe Marty and expressed pleasure over Marty's batting style and evident power.

Pasadena, Calif.—Manager Jimmy Dykes drove the White Sox regulars today, putting Appling, Hayes and Bonura through a stiff session under a hot sun.

Havana.—If the Giants' Spring training exhibitions are any indication, the National League champions are going to have the same old trouble this year: no hitting. In seven games against Cuban opposition, they've scored only 21 runs.

Clearwater, Fla.—Van Lingle Mungo, satisfied with a Brooklyn Dodger contract at \$15,000 salary, figures he'll win 23 games this year.

Negro Boxer Favored.  
New York, March 12. (AP)—The betting boys on boxing boulevard figure Henry Armstrong won't have much trouble putting Mike Bellosie away in his Eastern fistie debut at Madison Square Garden tonight. Odds-layers were quoting anywhere from 8-5 to 2-1 today on the California Negro, who won recognition in his home State and several other territories as featherweight champion when he whipped Bellosie in Los Angeles last October.

JUNIOR COLLEGE CAGERS OPEN TITLE TOURNAMENT  
Victoria, Texas, March 12. (AP)—Top-notch Texas Junior College basketball teams play for the championship of their conference today and tomorrow. In the round robin play beginning tonight will be Jacksonville, defending champions, Victoria, Schneider Institute of Kerrville and Wayland College of Plainview.

Famine Hits China.  
Hankow, China, March 12. (AP)—The China International Famine Relief Commission reported Thursday that famine threatened 2,000,000 persons in Western Honan Province. John Earl Baker, of Eagle, Wis., executive secretary of the commission, made public the findings of an investigation which declared "a condition of near famine exists."

# MIKE JACOBS HOLDS KEY IN FIGHT SCRAMBLE

New York, March 12. (AP)—They're all trying to grab the brass ring on the heavyweight merry-go-round, with Chicago, Berlin and New York rating contending positions in that order. One of the few identifiable facts is that the old collar and cuff man, Michael Strauss Jacobs, has the next heavyweight champion of the world in his grasp.

Even if Champion Jim Braddock is kept from fighting Joe Louis in Chicago and forced to meet Max Schmeling either in New York or Berlin this Summer, Mike Jacobs still will hold the strings. He has Louis and Schmeling both under contract, and has an option on Braddock's services if the champion beats Louis at Chicago.

The Garden's one and apparently remote chance of keeping any strings at all on the title situation is to force Braddock to go through with the contract to fight Schmeling here on June 3. This the champion has not the slightest intention of doing.

Along cauliflower alley you can hear talk (a) that all this shadow boxing is preliminary to a "deal" between Jacobs and the Garden, heretofore long time allies in the ticket business; (b) that each side is fearful the other will blow the lid off certain fictitious practices, past or present; and (c) that the Garden seriously is considering "washing its hands" of the entire boxing business in disgust or disillusionment.

All direct evidence, however, indicates both the Garden and the Twentieth Century Sporting Club—Mike Jacobs, Inc.—intend to remain in the fistie field.

The Garden had survived intermittent splurges of opposition. The current Garden matchmaker, Jimmy Johnston, once was so annoying as a rival promoter that he was finally taken into the fold.

# FRENCH NAVY AIDS VESSELS

SPANISH TRAWLER SHOT AFTER ATTACK ON SHIP IN SIGHT OF COAST

Brest, France, March 12. (AP)—France backed up an implicit warning to insurgent Spain to keep naval warfare out of French territorial waters with stringent orders to her Navy and air force.

The orders placed naval and aerial units of the West and South coasts on an uninterrupted duty status after four attacks by Spanish warships in the International shipping lanes.

French vessels were commanded to defend the lanes bordering France from invasion and watch constantly for belligerent vessels until the International control cordon was erected.

The rapidity with which the French Navy acted to aid the Spanish Government freighter Conde De Zubiria Wednesday when an insurgent warship made a daring attack within sight of the French Coast, was taken as evidence of French determination "to force respect for French waters."

The armed insurgent trawler surprised the freighter in the very center of the ship lane off the Island of Ouessant.

Sailors declared "only pure chance" saved neutral vessels from being within range of the 30 to 50 shells the warship fired before fleeing before the approach of French seaplanes and a sloop.

# DISCH OPENS NEW SEASON

PITCHING STAFF WEAK AS VETERAN MENTOR STARTS TWENTY-SEVENTH YEAR

Austin, March 12. (AP)—Coach William J. (Uncle Billy) Disch, veteran mentor of the University of Texas' perennial Southwest Conference baseball champions, is going about his business as usual despite a lack of pitchers.

When he issued the call for baseball practice the only member of last year's hurling staff to report was Henry Ramsey of Austin, a slow curve ball flinger.

Prospects for moundmen to relieve the diminutive Ramsey include C. C. Hughton of Buda, tall, fast, and wild right-hander; John Gannett of Henderson, a southpaw who has not developed control; Billy Hughes of Van Alstyne, a grid player with aspirations for first base and pitching, and John O'Connell of Austin, another wrong-handed twirler. None are lettermen.

Jimmy Stathakos of Dallas is working well at third base, a job left open when Lloyd Rigby, also of Dallas, lead-off man and crack hitter, moved to second under Disch's direction.

Two Austin lads, John C. Munro and Jack Conway, apparently have the edge for first and shortstop berths.

Charley Haas, All-State high school grinder from Corpus Christi who has shown proficiency with the willow, probably will roam the middle ground in the outfield with Leroy Westernman of Bellville flanking him in right.

Left field is slightly worrisome to Uncle Billy with John Maedgen of Troy, a reserve catcher and good batsman, and Wallace Lawson of Cleburne, another promising hitter, competing for the spot.

One of the best catchers in the conference, Captain Joe Fitzsimmons of Dallas, heads the receiving staff ably backed by J. F. Rave of Cibola and Zane Lawhorn of Thrall, both sophomores.

The season will mark the twenty-seventh conference baseball campaign for Coach Disch.

# WOMEN SHOUT OPPOSITION TO PROPOSED COURT PLAN

New York, March 12. (AP)—Women crusaders against President Roosevelt's Supreme Court program, angered by delay on their request for a municipal permit to operate a loud-speaker sound truck, turned to new tactics Thursday.

They are, they said, going to shout about it anyway—through a loud speaker.

Along the canyons of Wall Street, it was announced by the women's national community for "Hands Off the Supreme Court," a man astride the silenced sound truck would protest—as loud as possible with the human voice—against the President's proposals. This, they said, would be within the law.

# ASSISTANT NOTRE DAME COACH DIES IN CRASH

Chicago, March 12. (AP)—John J. "One Play" O'Brien, 51, assistant football and track coach at Notre Dame University, was killed early today when his automobile crashed into a railway viaduct pillar.

O'Brien was en route to his South Bend, Ind., home after a speaking engagement at Harvard, Ill.

He earned the sobriquet "One Play" in 1928 against the Army by catching a 40 yard touchdown pass on his first play of the game to upset the Cadets 12 to 7. The late Coach Knute Rockne pulled him out immediately after the feat.

He served as Assistant Football Coach at Annapolis for two years and was head gridiron mentor at St. Edward's College at Austin.

## "FAIR TRADE" BILL ADVANCED

### SOCIAL CLUBS IN HIGH SCHOOLS OPPOSED IN HOUSE MEASURE

Austin, March 12. (AP)—The "fair-trade" bill, which two years ago died on the Senate calendar, stood approved today by the Senate commerce and manufacturing committee. The committee last night heard the proposal called a price-fixing measure by opponents and an act to protect the small merchants by advocates.

The House education committee favorably reported a bill to prohibit high school social fraternities

and sororities with the exception of Hi-Y groups, Girl Reserves and similar organizations sponsored by State and national educational associations.

A resolution to submit a constitutional amendment to exempt resident homesteads up to \$3,000 from taxation, except school levies, was unfavorably reported, 8 to 6, by a House committee.

Another House group recommended a proposed natural gas levy of one-fourth of one per cent per 1,000 cubic feet instead of the present three per cent of value which was estimated to raise the annual receipts from that income from \$650,000 to \$2,225,000.

A bill to place venue of oil suits instituted by the State in the county where the property is located, limit receivers' fees in confiscation suits to 10 per cent and place a minimum sale price of 66 2-3 per cent of market value on the oil was approved by a Senate committee.

## INSURANCE ON CROPS STUDIED

### GOVERNMENT AIMS TO CUT RISKS OF FARMING IN NEW PROPOSALS

(Editor's note: The administration, seeking new solutions for the farm problems of the nation, has put forward a five-point program. This second in a series of three articles deals with two closely-related recommendations—crop insurance and the "even normal granary.")

Washington, March 12. (AP)—Government farm experts are seeking to cut down the risks of farming, which they consider the greatest gamble in the world.

Senate agricultural leaders hope to send to the floor next week a measure setting up a \$100,000,000 corporation to insure wheat farmers against the loss of their crops in bad years.

Such insurance is one part of a dual program to protect the producer against the hazards of nature and to stabilize both price and supply. The other part is the "even normal granary."

Government farm experts suggested premiums be paid in grain during bumper years to guarantee the farmer a fixed portion of his normal crop in bad years.

The statisticians figured the average farmer could afford to pay in one-third to two-thirds of all his wheat yield above normal in good years and receive grain or cash in bad years to bring his total returns up to 75 per cent of the normal yield.

They said each farm or county could pay its own risks, so that the losses of poor farmers or poor lands would not be shouldered by good farmers and rich soil.

## Soldier Has Hope Jail Will Solve Domestic Trouble

San Antonio, March 12. (AP)—A 30-year-old Fort Sam Houston soldier was in the city jail today, voluntarily, because he wanted to kill his wife's love for him.

The man approached Detective Lee Jones and Policeman W. G. Wissman in a cafe near police headquarters and told them he was a parole violator from the Gatesville, Texas, school for delinquent boys.

"Why man, you're not a juvenile, you've grown up," Detective Jones said.

"Yes, but I want to go to jail anyway," replied the soldier. "I was supposed to have reported every month to juvenile officers after I was released from the school in 1923 and I haven't done it."

Detective Sergeant D. E. Kelly sensed domestic trouble right away.

"Come on, tell me all about this woman you're miffy about," commanded Kelly.

"Well, Sergeant, it's like this," the soldier started out. "I am married and have two children."

"Oh, oh, I knew this was coming," said Kelly. "Who is the other woman?"

"There is no other woman," said the man. "... I decided two years ago that I didn't love my wife any more and I just haven't got the heart to tell her. I hate to keep on lying to her and I thought maybe if I got in jail and it came out that I was a parole violator that it would kill her love for me."

### ITALIAN PRISONERS IN SPAIN ARE EXHIBITED

Madrid, March 12. (AP)—Forty-one Italian prisoners of war were displayed to foreign newspaper men at military headquarters here as captives taken on the Guadalajara front.

Two Italian divisions—the "Temeraria" and "Black Feathers"—were reported by Government officials to have taken up advanced positions among the insurgent troops battling northeast of Madrid.

Four of the prisoners were officers, who wore nondescript uniforms and who posed stolidly for photographers in an underground cell under close watch of bayoneted troops who lined the walls.

One private, a tall, lanky, heavily-bearded soldier, announced: "We are not Fascists. We came to you almost running."

## TRAFFIC ACCIDENTS MOUNT.

### Safety Campaigns Have Produced Results, but Problem Is Little More Than Touched.

Safety work has hardly scratched the surface despite the many campaigns to emphasize the danger of accidents. That safety activities are obtaining results is demonstrated in re- cent reports that substantial reductions in accidental deaths have been shown as a result of continuous and aggressive safety programs.

Yet in 30 states which showed an increase in deaths last year fewer than half had not performed any notable work in any major branch of traffic safety. It is encouraging that plans for this year in most states include increased at- tention to safety activities.

The traffic menace is strictly a man-made affair. Since man created this danger, he could end it. But too many motorists refuse to give up driving habits which tragic ex- perience has proved dangerous. Public opinion has too frequently handicapped police officers in building an effective system of traffic control.

Traffic deaths continue to mount at a rate that would cause a resounding cry of protest if they were caused by some plague or pestilence. It seems new dangers are found as rapidly as old ones are destroyed. Medical science has saved thousands through advanced practices, but other thousands are sent to their graves by man-made traffic.

## TRYING TO STOP A WAR OF WORDS.

### Secretary Hull Apologizes for Mayor LaGuardia and Then Scolds German Newspapers.

Secretary Hull seems to be having difficulty in keeping order between some of the bad boys whose behavior is cal- culated to disturb relations between the United States and Germany. A few days ago he apologized for remarks of Mayor LaGuardia of New York concerning the German dic- tator. Now it appears German newspapers have accepted the gauge of battle thrown down by the New York Mayor and have said some unkind things about the United States.

It is possible, of course, to go beyond proper limits in references to other nations and those who govern them, and certainly a man who occupies so important a position as chief executive of our largest city ought to be careful in comments on the officials of other nations.

After all, so far as the American people are concerned, there is nothing to be done about the government in Ger- many. What Mayor LaGuardia said about Hitler probably represents the opinion of at least two-thirds of the people who have definite information about him. Most likely the majority of the German people if they dared express their real opinions would say the Mayor is right.

But sensible people don't express every opinion they have, and certainly one who occupies an important government position should respect the proprieties which govern the relations between nations. The whole affair appears child- ish and the fact that Secretary Hull voiced a protest, though an unofficial one, against the comments of German editors suggests that he is taking the matter rather more seriously than it deserves.

## LAUNCH STRUGGLE FOR PEACE.

### Effort Is Being Made To Mobilize Influence of All Religions Against War Propaganda.

Four hundred leaders in religious thought meeting in New York have given impetus to the Emergency Peace Campaign which is being fostered by Harry Emerson Fosdick, noted New York minister. The consensus of the gathering was that movements for peace should be encouraged or spon- sored by church organizations.

Laying aside theological differences, it was agreed uni- formously that the church could build lasting peace only by preserving democracy. One speaker said, "The last war was fought to make the world safe for democracy, and it produced Fascism. The next effort must be made to pro- duce peace in order to make the world safe for democracy. War brings Fascism; democracy flourishes only in peace."

Taking the glamour as well as the profit out of war was one of the ideas advanced at the meeting, while others in- cluded clarification of national defense policies, reciprocal trade agreements to adjust economic differences, and soli- difying of anti-war resources by Great Britain and America.

The results of a meeting of this kind may never be de- termined clearly, but the manner in which disciples of many religious faiths have attempted to cooperate in a common cause offers an inspiring example to the public. Leader- ship of this type will be followed.

A will by which a New York woman left \$200,000 to her chauffeur probably will be broken by relatives on the ground that he drove her to it.

Americans are people who think an actress more glamor- ous after she abandons the name Smith for El Ropo.

A cigar company ought to make a pretty good thing of it, what with royalties from actresses for use of the name.

Since throngs in England are clamoring to see a king crowned, Levinsky's career seems far from over.

Mention of a 30-hour week has Junior worried. If they keep cutting it down, it will soon mean a bath a day.

## I. O. O. F. MEET GETS STARTED

### LARGE VERNON DELEGATION TO ACCOMPANY DEGREE TEAM TO SESSION

Corsicana, Texas, March 12. (P)—Corsicana has made all preparations for the entertainment of several thousand Odd Fellows and Rebekahs at the annual sessions of the Grand Lodge and Rebekah Assembly of Tex- as which opens here tomorrow night and extends through Tuesday. Gen- eral arrangements committee spokes- men stated today that everything is in readiness for the influx of visitors. The business district has been decorated.

Mrs. Frances Thomson of Corpus Christi, president of the Rebekahs, is slated to arrive here today while Grand Master Henry L. Carpenter of Greenville, S. M. Williams, Dal- las, Grand Secretary, and other of- ficials have indicated they will ar- rive tomorrow.

The attendance will be large due to the location of the I. O. O. F. home here.

### 35 MEMBERS OF LODGES IN VERNON TO ATTEND SESSIONS

About 35 members of the Rebekah and Odd Fellow lodges in Vernon are planning to attend the State I. O. O. F.-Rebekah convention open- ing Saturday in Corsicana. Included in the Vernon delegation will be the Rebekah degree team that won first place last year in the State conven- tion at San Angelo.

Mrs. C. H. Woods and Oran R. Key will represent the Vernon Rebekah and Odd Fellow lodges, respectively, as official delegates.

The degree team of 26 members, headed by R. E. Gaston, captain, will leave Sunday. Degree teams of the State will complete Monday.

Several members of the lodges here are planning to leave Saturday for Corsicana.

Members of the degree team are: Mrs. Oran H. Key, Mrs. B. H. Lewis, Mrs. T. S. Lamar, Mrs. W. A. Larri- more, Miss Mary Coleman, Miss Opal Thomas, Miss Irene Thomas, Mrs. E. B. Stroup, Mrs. Esther Key, Mrs. E. B. Rowland, Mrs. Nell Cook, Miss Willie Mae Murdock, Miss Paralee Rowsey, Mrs. George A. Long, Mrs. Henry Richie, Mrs. Ann Minyard, Mrs. Edith Robertson, Mrs. Nix, and Mrs. John Walker. Mrs. Earl Coleman is musician and men char- acters are Mike Wilkinson, Henry Richie, T. S. Lamar, and J. D. Nix.

### REPORT ON COOPERATIVES IN EUROPE IS STUDIED

Washington, March 12. (P)—A presidential commission which stud- ied the cooperatives offering Euro- peans everything from food to fu- nerals has recommended establish- ment of a Government agency to give information and advice to such organizations in this country.

Some members of the Commission warned, however, "high pressure" promotion of the movement would lead to graft and failure.

The six members, who traveled through Europe last summer study- ing mass buying groups in which the customer is part owner or shares in profits, differed widely on the possibility of adapting the idea to the United States.

They agreed, however, consumer groups should be given the same credit facilities as farmers' coopera- tives and private business.

### ELLIOTT ROOSEVELT ASKS COLLEGE HOUSING PLAN

Fort Worth, March 12. (P)—If young Elliott Roosevelt has his way the Texas Legislature will provide money for housing at Texas A. & M. College.

The President's Texas-residing son, a new member of the A. & M. board of directors, last night told the Fort Worth A. & M. Club:

"The Legislature doesn't seem to think it costs anything to educate a boy down there, but must be brought to see it as an emergency more important than old age se- curity."

"With some 4,200 to 4,500 students enrolled, only 2,700 are housed on the campus. They must have proper housing and that's the State's duty."

### NEW JERSEY GOVERNOR SLAPS AT PRESS CRITICS

New Brunswick, N. J., March 12. (P)—Governor Harold G. Hoffman, turning one-day columnist for the New Brunswick Daily Home News, today slapped back at newspaper editors who have attacked his poli- cies. The Governor confided that his "real ambition" is to become a newspaper editor "and write a lot of editorials about the editors who have been writing editorials about me."

### Boy Held in Slaying.

Chico, Calif., March 12. (P)—Four- teen-year-old Sherman Shields was held in jail today despite an in- quest verdict that he was justified in killing his father, A. A. Shields, 45, at nearby Newhart Mill Wednes- day. The boy said he shot his sleep- ing father after the man allegedly attacked his 15-year-old daughter, Florence.

### FIA Activity Checked.

Washington, March 12. (P)—Con- gressional leaders and housing of- ficials disclosed today the Federal Housing Administration would cease guaranteeing home modernization and repair loans after March 31. That is the expiration date, officials said, of the section of the Federal Housing Act, containing authority for guaranteeing modernization loans.

### Thief Disappointed.

Dallas, March 12. (P)—A youth who snatched the purse of Mrs. Clarence McDermott here probably was disap- pointed. Mrs. McDermott told police "there was a counterfeit 50-cent piece which I was saving, four pennies, two bank books which he can't use, and a prayer book which he wouldn't understand if he could read it."

## Planning Board Chief Says PWA Projects Dropped

Austin, March 12. (P)—Major E. A. Wood, director of the Texas Plan- ning Board, recently expressed the opinion most of the 70-odd contem- plated PWA projects in Texas, for which towns and counties voted bonds, probably would be abandoned.

The bonds were voted in anticipa- tion of Federal match money which, under changing policies of the Pub- lic Works Administration was denied Texas because, it was said, the State had an insufficient number of un- employed skilled laborers.

Governor James V. Allred confer- red with President Roosevelt in hope of obtaining \$9,000,000 from the ad- ministration for the projects plan- ned by political subdivisions in the State but was told the best the Fed- eral Government could do would be to allot from 10 to 20 per cent of cost instead of the former 45 per cent.

The projects included school build- ings, additions to school buildings, bridges, road improvements, drain- age projects, and Galveston submi- tted a causeway addition.

Since the projects in many in- stances were completely planned and bonds to furnish the State's share of construction costs voted, Wood said some cities and counties might decide to vote additional bonds and build the projects themselves.

Wood said it was possible some of the projects, instead of being abandoned, might be revamped or scaled down from original plans and built on a modified basis.

Refusal of the expected PWA grants, he said, was a severe blow to the State in that it halted expendi- ture of nearly \$20,000,000 in construc- tion projects.

### DEMOCRATIC COMMITTEE GIVES FINANCIAL REPORT

Washington, March 12. (P)—The Democratic National Committee has reported it took in \$174,005 in the first two months of the year and spent \$349,025.

The Republican National Commit- tee cut down its deficit by around \$47,000; receiving \$109,415 and dis- burging \$42,979.

Heading the list of Republican contributors was Alf M. Landon of Topeka, the party's defeated presi- dential candidate with a contribu- tion of \$1,000. The biggest contribu- tion, \$25,000, was from Howard M. Johnson of Pittsburgh.

The Democrats made \$73,133 on the sale of their book of the party convention in Philadelphia and \$4,000 out of the testimonial dinner recent- ly given James A. Farley, the nation- al chairman.

Contributions to the Democrats in- cluded John T. Jones of Houston, \$1,500 and Dr. John R. Brinkley of Del Rio, \$1,900.

### OIL TENDER FORGERY CASE AT CONROE IS CONTINUED

Conroe, March 12. (P)—The State has continued its case against M. D. Carter, former employee of the Texas Railroad Commission, being tried on charges of "conspiracy to commit forgery and use of a forged instru- ment" and "use of a forged tender."

The testimony was largely docu- mentary but a number of employes of the Railroad Commission and oil companies were heard. Attorneys said the trial was "slow and tedious" and that testimony possibly wouldn't be completed this week.

Carter was indicted last Fall with seven oil operators.

The defense, headed by C. C. Mc- Donald of Wichita Falls, contended Carter had never worked in the Con- roe oil field when in the tender De- partment of the Commission, where the tenders were alleged to have been forged or used.

### RADIO WATCH RULING FOR SHIPS GIVEN EXTENSION

Washington, March 12. (P)—The Communications Commission said it had extended through Aug. 6 an ex- emption of ships of 5,500 tons or more from rules requiring the main- taining of a continuous radio watch.

It also approved radio auto-alarm devices made by two manufacturers. Under the international convention for promoting safety of life at sea, a continuous radio watch must be maintained unless an approved auto- alarm is provided. Individual govern- ments may grant exemptions from this requirement for not more than one year.

The exemption was made condition- al on the maintenance of a watch of not less than eight hours a day. It was first granted Nov. 11.

The requirement does not apply to ships of less than 5,500 tons.

# HER NAME IN LIGHTS

BEGIN HERE TODAY  
DAPHNE BRETT, charming young New York advertising executive, is in love with LARRY SMITH, architect. Daphne has one younger sister, JENNIFER.

Jennifer resents Daphne's attempts to guide her career. First she dates TUCKER AINSLEY, wealthy playboy. In defiance of Daphne, Next she makes a play for Larry's affections. Eventually the sisters reach a showdown, but it is clear that Jennifer is determined to lead her own life.

Meanwhile Larry proposes marriage to Daphne, but she tells him she must wait. Her reason is that she feels her first duty is to Jennifer: to get her launched on a career. Larry, without knowing this, agrees to wait. And the next night, while at a night club with Larry, Daphne learns Tuck has obtained a license to marry Jennifer! Frantic, Daphne leaves with Larry to stop the marriage.

## NOW GO ON WITH THE STORY CHAPTER XV

Their taxi slid around a corner on two wheels. Daphne, sitting forward on the seat as though to urge it on to greater speed, fell back in a heap. "Darling, keep your head. We'll stop it," Larry promised.

"Oh, but if he isn't at his apartment, Larry!"

"We'll meet that when we come to it. We do know that Jennifer is at the theater with the Bakers. And it is only 11 now. Isn't it likely that she would come from the theater to meet him at his apartment or at your own? I thought the fashionable hour to elope was midnight."

"But if he isn't here!"

He was, Tuck answered the doorbell ring himself.

"Hello, Tuck. Surprised to see me?" Daphne, outwardly cool, smiling and beautiful in her white evening clothes, greeted him.

"Rather," he said, "and honored, of course. Won't you come in?"

"Certainly," she said, and moved leisurely into the living room. There was an open suitcase on the lounge.

"Going some place?" She sat down and reached for the cigarette box.

"Yes," he said, "I was . . . er . . ."

"Going to be married," she said. "I know. I know all about it." She kept her tone light and pleasant but

she couldn't light the cigarette because her hand shook.

He lighted it for her and she blew smoke toward the ceiling. Still following its course with her eyes, she said, "Tuck, you let me down. You know I always admired you tremendously because you always played so fair."

"No, thank you," she answered and thought: I must be careful to say the right thing.

"We all slip on those things sometimes," she pursued, "but there is something else. I used to be a little sorry that I wasn't the right complement for you."

"What do you mean?" he asked and put down his glass.

"Oh, Tuck, you're so . . . such a worldly person, so balanced, so . . . oh, you're the cosmopolitan manner." Words, she thought, "You're the kind of a man I thought should marry a woman who would be glamorous. A woman of the world. A woman who was always assured and, well, grown-up."

She glanced toward the table. "I think I will have a high ball."

He poured it for her.

"You know, of course, that I don't want to stand in your way if you want to marry Jennifer and if she wants to marry you, but Tuck!" She managed that look of perplexity—a flattering perplexity—perfectly. "It isn't like you to rush into anything like this."

"I know that Jennifer is pretty keen about you. She must have been because she's been sounding me out about how much money you have."

She stopped off talking and sipped her drink while her last remark sank in. Then she went on:

"You might make a good husband for Jennifer at that. She's frightfully extravagant, loves expensive clothes and servants just as much as you do." Daphne knew that sacrifice was not in Tuck's line. He loved his fine clothes, his expensive little apartment and Daphne knew that it took all his income to keep them up. She watched the dubious frown gather on his forehead.

"She'll be true to you, Tuck. She's that kind because she is jealous. She knows what she wants and what she

wants, she gets! But once she has got it, it belongs to her. I admire her possessiveness and her go-gettiness, too."

Tuck drew in his breath. Daphne half-expected him to whistle. Instead he took a long swallow.

"As a matter of fact I wouldn't be a bit surprised if this eloping idea was entirely Jennifer's."

"It was," he said unexpectedly and Daphne hated him for it.

Daphne laughed. "And you, Tuck, Ainsley, to be taken in by such schoolgirl tactics! Well, that's up to you. Frankly, I think it might be a good idea. You're lots older than Jennifer and you'd have a steady influence but I would suggest that instead of running away, you let me announce your engagement and give the child a chance to get ready for a real wedding, to get an apartment for the two of you. You'll need a much larger one than this, of course."

Tuck got up and picked up the suitcase. He took it into the bedroom. Daphne gave herself the luxury of a great sigh of relief and stifled her smile of triumph as he came back.

"Larry Smith is downstairs. Hurry up and get into your dinner jacket and we'll have a party. We'll go on with you wherever you are picking Jennifer up. Is it a go?"

Daphne didn't think that Tuck could look sheepish. He did now.

"Look," he said, "You do understand, don't you? Jen is a lovely little thing and . . . well, it seemed like a good idea."

"Of course it was," she said stoutly. "But I'm sure that you weren't getting the right break. You'd prefer that we announce the engagement, wouldn't you?"

He caught his under lip and avoided her eyes. "You've given me something to think about. I mean that age angle. You're always right. Daphne, Jennifer is only 18 and I'm 30. Let's talk it over some other time."

"All right," she said cheerfully. "You talk it over with Jennifer. Now, hurry."

While she waited and powdered her nose, she thought: Daphne, for a quiet, conservative girl you do rather manage to pack the exciting things into your life. Well, a little more lipstick might help me to meet the fireworks. Because, my girl, there will be fireworks when sister gets this news.

"Where is she?" she asked Tuck.

Tuck, arranging a dark red carnation in his lapel, wore the expression of a man who has been snatched from the edge of a burning pit.

"She's with the Bakers. They were going to El Matador. I'm picking her up there."

"Splendid. Larry and I had planned to go there."

"Darling, we'll be able to go to El Matador, after all," she said to Larry and gave him a warning squeeze of the wrist for silence, when they were three in the taxi.

Jennifer saw them before they saw her. She was seated at a table hidden by palms while they stood at the plush rope. And she knew as surely as though it had been told her, that somehow Daphne had learned about her plans and had spoiled them.

But how much she knew, how much Tuck told her when they were dancing, or whether he told her the truth, was something that Daphne never knew.

For the next two hours while they danced at El Matador and later at the Hi Jinks Club where they went to hear the songs of the latest French diva, Jennifer was gay. And so was Daphne. But when Daphne spoke to Jennifer, Jennifer didn't answer.

At last, they were alone in their apartment.

Jennifer undressed silently, bathed and put into her bed. Before she turned off the light, she said, "Daphne, I warned you that if I ever fell in love and you interfered, you'd be sorry. You will be!"

## DR. TOWNSEND GETS 30 DAYS

**PENSION LEADER IS FINED  
\$100 ON CONTEMPT  
OF HOUSE**

Washington, March 12. (AP)—Dr. Francis E. Townsend was sentenced to one month in jail and fined \$100 today for contempt of the House of Representatives.

Townsend's bond of \$1,000 was continued pending an appeal.

The Old Age Pension leader's conviction resulted from his sudden departure from a House committee last Summer. In the midst of questioning on his pension organization, Townsend jammed on his hat and stalked from the committee room.

Subsequently, he was cited by the House to the Federal grand jury. Two of Townsend's aides, John B. Kiefer of Chicago, and Clinton B. Wunder of New York, pleaded guilty to the same contempt charge of which Townsend was convicted but were given suspended sentences after apologizing to the House.

A third man, Murray Bleefeld, pleaded guilty and testified for the State.

Governor G. Hoffman of New Jersey, has refused to honor requests for extradition of two others, Ellis Parker, Burlington County, N. J., detective and his son, Ellis, Jr.
